

EXPLOSION

Lolium perenne

Profile

EXPLOSION is an intermediate tetraploid perennial ryegrass with outstanding quality properties, based on the results of the Chamber of Agriculture in Germany. High sugar contents combined with an excellent digestibility are the fundament for high milk yields, as shown in the picture at the bottom. The high quality is ensured due to a very good resistance to rust. Additionally, EXPLOSION convinces with consistently high yield levels. The exceptional winter hardiness and good adaption to moor sites are further important characteristics of this unique variety.
