

CLICK CL

Spring Seed

Profile

Click CL is a hybrid spring rape variety which produces good yields on farm coupled with strong youth development in the spring. It is a new generation hybrid with Clearfield herbicide tolerance which can be used to help control brassica weeds in the spring.

Click CL has produced some very good oil contents in trials throughout Europe. It is already commercially available in Germany, Russia and the Ukraine.

Click CL has a medium flowering and maturity score as well as a good resistance to lodging score.

- The first of DSV's spring Clearfield varieties available in the UK
- Click CL is a high-yielding alternative which provides the perfect opportunity to control brassica weeds in the spring
- Very high oil content
- Cleravo (imazamox + quinmerac) is approved for use on spring oilseed rape
