

LAVINA

Spring Seed

Profile

New to the Descriptive List, LAVINA is another high performing variety from the product portfolio of DSV. LAVINA has a substantial Seed Yield of 101%, supplemented by a high Oil Content of 44.4% but its most notable feature is its Maturity (6).

It has quick early vigour ensuring swift plant establishment and root development in the spring to protect against strikes of flea beetle.

LAVINA also boasts good Shortness of Stem (7) and earliness of Flowering (7) which combined, make it a prime choice for farmers wanting a to grow a vigorous commercial crop for the coming year.

- High oil content
- Quick early vigour ensuring swift plant establishment
- A prime choice for farmers wanting a to grow a vigorous commercial crop for the coming year
